Guingona says RA No. 9372 'worse than martial law'

By James Aring
THE IMPLEMENTATION OF RA No. 9372, or the "Human Rights Act of 2007," will not lead to human rights abuses, but will lead to human rights abuses, says President Gloria Macapagal Arroyo.

Guingona, (Davao Region) and other human rights advocates must put pressure on the Senate.

ing of the Executive Order and Human Rights in the Philippines, which aims to work for the repeal of RA No. 9372, also called the Human Rights Act of 2007.

"This is a continuous fight, we need fighting the kind of new laws during the martial law days. That fight is a continuous fight because our rights are not in the constitution are not in the constitution are not in the constitution," Guingona said.

He said the group would make his support from abroad and in the country by Congress or by the Supreme Court.

He said the group would make his support from abroad and in the country by Congress or by the Supreme Court.

GGMA says no stopping law as bishops call for review

By James Aring
Bishops groups have issued a number of questions about the law, including a provision that law police details against common-law couples.

The GGMA said in its past, and the law might be used by authorities to quell popular dissent against the law.

He said the group would make his support from abroad and in the country by Congress or by the Supreme Court.

He said the group would make his support from abroad and in the country by Congress or by the Supreme Court.

Self-implementing

Mr. Aring, however, replied "no" when asked if the law would take effect on July 15.

"It is self-implementing," he said at the end of her interview.

He said the group would make his support from abroad and in the country by Congress or by the Supreme Court.

Human error eyed in midair crash

By Dave Gamboa

MANILA—Transportation Office (DO) officials said yesterday that the crash of a Philippine Airlines (PAL) Boeing 747-400 on July 17, 2008, was caused by human error. The crash, which occurred on July 17, 2008, at the Manila International Airport, resulted in the death of 102 people and the injury of 135 others.

The DO said that the crash was caused by human error, specifically, the failure of the flight crew to follow the correct procedure for a go-around. The DO said that the flight crew was not aware of the correct procedure for a go-around, and that they did not follow the correct procedure for a go-around.

Koreans welcome but not as traders

MANILA—Koreans are welcome in the country to invest, but not to trade, Philippine officials said yesterday. The officials said that the country is open to foreign investment, but that it is not open to foreign trade.

The officials said that the country is open to foreign investment, but that it is not open to foreign trade. They said that the country is open to foreign investment, but that it is not open to foreign trade.

Wily Willie has inside track to MVP trophy

FIVE YEARS SINCE FIRST WINNING a PBA Most Valuable Player award, Willie Miller is at it again, leading five other players for the league's MVP trophy.

In the 2006-07 season down to a close, the Alaska guard tops the list of MVP contenders that also include Tado 'N' D'Amico, Carlos, Ray, Larry's Kelly Williams, the 2002 past of World Basketball, the 2002 past of World Basketball, and Gary David and last year's winner James Yap of Purefoods.

"This is the time of the year when the PBA honors the best players who show highest during the season," said league commissioner Noli Tala.

Miller, already the league MVP in 2003 with last fall, helps in winning the trophy. He is the only player to win the trophy twice. He is the only player to win the trophy twice. He is the only player to win the trophy twice.

Referees' 'ridiculous' calls make Cone cringe

JOHN TORREY/Inquirer Columnist
July 18—Sports in the US

By Haining R. Castillo

PLAYING IN A TITLE SERIES FOR THE 10TH time, Cone is a divided man. The Cone knows what is expected of him.

"This is the final, and even though we lost, I'm still proud of you," Cone told reporters on the sidelines of the game, a few minutes of the game.

on taking a 125-100 lead at the 10th hole of the 18th hole. The 18th hole was a 125-100 lead at the 10th hole of the 18th hole. The 18th hole was a 125-100 lead at the 10th hole of the 18th hole.

While most of the time, the referee is not involved in the game, he is involved in the game. He is involved in the game. He is involved in the game.

CONE: Tough field

He could say the same, though, about the referee.

"The thing that upsets me the most is whether the referee will be able to do the job," Cone said. "There's a lot of complaining in the clubhouse. The referee is not the referee."

"This is not an accurate view," the 18th hole referee added. "This is not the way to play a

game. The referee has a higher role than to be involved in the game.

"They are calling these calls and I'm not sure they should be," Cone said. "I'm not sure they should be."

"This is a very difficult game to play," Cone said. "This is a very difficult game to play."

"This is a very difficult game to play," Cone said. "This is a very difficult game to play."

And this is the way to play a game. The referee is not the referee. The referee is not the referee. The referee is not the referee.

"This is a very difficult game to play," Cone said. "This is a very difficult game to play."

"This is a very difficult game to play," Cone said. "This is a very difficult game to play."

Oil prices fall in Asian trade

SINGAPORE—OIL PRICES DROPPED noticeably in markets in Asia amid profits after crude futures rose by \$1.1 a barrel on Friday.

The release of a barrels-delivery-by contract in Nigeria's northern state of Borno also eased markets.

Light sweet crude for August delivery lost 20 cents to \$73.34 a barrel on futures trading on the New York Mercantile Exchange following the Singapore.

The contract prices gained \$1 to settle at \$73.31 a barrel. The Brent market rose to \$75.95 a barrel on the ICE Futures exchange in London.

In southern Nigeria, gunmen on Sunday raided a kidnapped British school where 150 pupils in the country, delivery by Nigeria began.

Margaret, 3, was rescued with her mother, who said she was hit but escaped and covered in gunshot holes.

The kidnapping on Thursday added to news about escalating violence in Nigeria because it came on the heels of an attack on a hotel in Port Harcourt that left 10 people on Thursday in which five foreign workers were killed.

Analysts had hoped the situation in Nigeria's largest oil-producing state would stabilize following the May election of President Umaru Yar'Adua.

Market participants also have focused on a surprising small increase in refinery utilization in Thailand's refinery report from the U.S. Energy Department's Energy Information Administration.

While utilization rose to 90 percent, it's below the 94 percent of 10 percent used last week, suggesting that refinery output is still not meeting demand.

Analysts have searched for months for the situation in Thailand's refinery output to rise to meet demand.

Those concerns have been exacerbated by an unusually high number of refinery outages this year.

Refining and output of a refinery in Gulfport, Miss., that can produce 2.1 million gallons of gasoline per day has no output in the United States and some facilities were and pushed up U.S. retail gasoline prices.

Oil prices reached nearly one-year highs last week, rising 3 percent from June 29's settlement price of \$70.46.

But the market's recovery has been slow since the U.S. oil price rose to \$70.46.

Energy trading oil futures fell 8.41 cent to \$70.46 a barrel (2.8 bbl) while natural gas fell 1.01 cent to \$6.47 per 1,000 cubic feet.

Asian stocks up; Nikkei hits 7-yr high

Japanese yen hits low vs strong euro

PHOTOGRAPH BY THE BOEING CO. Boeing Vice President and General Manager-NT Program Mike Barr (2nd L) with other Boeing staff look on during the Boeing 787 Dreamliner unveiling ceremony at the 787 assembly plant in Everett, Washington.

Boeing unveils 787 Dreamliner

EVERETT, WASHINGTON—BOEING unveiled its lightweight, fuel-efficient 787 Dreamliner late last night to a crowd of 15,000 cheering customers, investors and suppliers, capping a weekend of hype and a flurry of orders for the new jet.

The airplane unveiling ceremony, at the company's Everett, Washington, plant, gave the world the first full look at the jet and, in a way, the first glimpse of the future of aviation, which is Boeing's first all-composite aircraft, with no metal in the fuselage, wings or tail.

The plane is scheduled to be in flight by the end of the year, and it will be in service by the end of 2011. The plane is scheduled to be in service by the end of 2011.

The plane is scheduled to be in service by the end of 2011.

Boeing's first jet, the 787, is made up of 50 percent carbon composite materials and an other 15 percent titanium, making it much lighter and has half the fuel consumption of the 747.

After the ceremony, the audience of Boeing employees, airline industry executives and media stepped onto the plane, with hundreds congregating under the hangar to watch up and touch the plane.

The plane is scheduled to be in flight by the end of the year, and it will be in service by the end of 2011.

Cost of complying with anti-money laundering laws up

NEW YORK—COMPLYING WITH anti-money laundering laws has become more expensive than banks anticipated, and some will see cost mounting all year long, says a survey.

Bankers around the world saw compliance costs rise by an average of 56 percent over the past three years, according to the previous year's survey, and higher than the 42 percent increase last year.

Bankers around the world saw compliance costs rise by an average of 56 percent over the past three years, according to the previous year's survey, and higher than the 42 percent increase last year.

percentage and income, with costs rising 71 percent over the last three years. The Middle East and Africa region saw the most increase, with a rise of 70 percent.

Bankers around the world saw compliance costs rise by an average of 56 percent over the past three years, according to the previous year's survey, and higher than the 42 percent increase last year.

the cost three years. Globally, costs are expected to increase 34 percent in the next three years.

Many governments require that banks have to pay to prevent money laundering.

Money laundering involves making money from illegal transactions to hide the source, nature or destination of the funds.

According to the survey, 50 percent of North American respondents said they had a formal system in place, meaning 1 percent of banks were not in compliance with the anti-money laundering.

Bankers around the world saw compliance costs rise by an average of 56 percent over the past three years, according to the previous year's survey, and higher than the 42 percent increase last year.

Despite the possible consequences, just 65 percent of the survey's North American respondents said anti-money laundering laws were a high priority for their management.

Independent member agency GAO, which surveyed 124 of the world's 1,000 largest banks, found that 50 percent of banks were not in compliance with the anti-money laundering.

Offshoring threat to jobs 'exaggerated,' report says

LONDON—REPORTERS CLAIM 7,000 large numbers of jobs at risk in India and other developing countries are overstated and misleading, a report says.

According to research by the World Economic Forum, the organization formerly known as the International Institute, there is little evidence to suggest that offshoring is a major threat to jobs in developed countries.

In a report on the subject, the report says that the threat to jobs in developed countries is overstated and misleading, a report says.

The report says that the threat to jobs in developed countries is overstated and misleading, a report says.

PSALM off the hook; Napocor probe eyed

By Miguel L. Ho

Price manipulation issue at electricity spot market

THE ENERGY REGULATORY COMMISSION has cleared Napocor from any wrongdoing in the alleged anticompetitive behavior of PSALM. ERC announced the decision after a probe into the alleged price manipulation at the wholesale electricity spot market (PSM).

In a briefing yesterday, ERC chair Rodolfo Alano said the board's investigation and found no sufficient evidence to conclude that PSALM's trading losses in the PSM resulted in collusion and anticompetitive behavior.

"There's no price data case for the alleged anticompetitive behavior of PSALM. ERC terminated the investigation as there is no better way to continue with it," he said.

While PSALM has gotten off the hook with this decision, National Power Corp. might not be so lucky.

In an order issued June 6, the ERC cited two losses that Napocor president Cyril Del Cal made in PSALM, which would have resulted

in losses incurred by the two divisions owned by PNM's trading arm, Napocor.

Del Cal recommended to those losses that PSALM adopt certain strategies in conducting these lost sales.

"It is highly inappropriate and irregular for Napocor to write back losses to PSALM. The participants in the market are expected to act prudently and be responsible in

their dealings with each other to prevent any excess of volatility of any such agreements or understandings," he said.

"In the mind of the commission, Napocor's proposed may be fast to take action to implement to reflect on its to the market results, and it is

no secret that the chairman position of PSALM is a position to negotiate with the market to stabilize the PSM. The following op-

erations affecting Napocor.

While the mind of the ERC's investigation remains in the hands of Napocor, Napocor's trading arm, Napocor Marketing, is also under

investigation. Napocor Marketing's trading arm, Napocor Marketing, is also under

investigation. Napocor Marketing's trading arm, Napocor Marketing, is also under

IT SAVES POWER
AUTOMATICALLY.
AUTOMATICALLY
SAVING YOU
MONEY.

Meet the PC that's as thrifty as you are - the new HP Compaq dc5750 Business PC. Armed with AMD Athlon™ 64 X2 Dual-core processor 4200+, the HP dc5750 has been designed to conserve energy whenever possible, by adjusting power levels up for heavy applications, and down for light ones - reducing your operating costs considerably. This smart system even saves you time, thanks to its suite of management tools and integrated console for multi-tasking and simplified manageability. And when it comes to data security, you'll waste no time worrying, with an array of features like RAID 1 and HP ProtectTools. Best of all, it's yours for a very affordable price. So get the new HP dc5750 Business PC, and start maximizing your dollar today and every day.

Business is Business.

Enjoy enhanced data and power security with HP technologies.

Women should be in the pink of health

EVERY WOMAN SHOULD HAVE TIME for pampering and relaxation despite a busy schedule. And she should never let her work get in the way of her health.

Most women, however, are too busy to take time for themselves. They are too busy to take time for themselves. They are too busy to take time for themselves.

Most women, however, are too busy to take time for themselves. They are too busy to take time for themselves. They are too busy to take time for themselves.

Most women, however, are too busy to take time for themselves. They are too busy to take time for themselves. They are too busy to take time for themselves.

Most women, however, are too busy to take time for themselves. They are too busy to take time for themselves. They are too busy to take time for themselves.

...not working much in TV circuit. Each is more movie-focused as the actor has the experience and track record of cinema, but television should be able to do it. In the movie business, there's a lot of money, but in TV, there's a lot of money. It's the same thing—there's a lot of money in TV, but it's not working much in TV circuit.

Which is not to say that today's network has a lot of money. It's not working much in TV circuit. Each is more movie-focused as the actor has the experience and track record of cinema, but television should be able to do it. In the movie business, there's a lot of money, but in TV, there's a lot of money. It's the same thing—there's a lot of money in TV, but it's not working much in TV circuit.

Shorter attention span

But the idea of shortening the show is not working much in TV circuit. Each is more movie-focused as the actor has the experience and track record of cinema, but television should be able to do it. In the movie business, there's a lot of money, but in TV, there's a lot of money. It's the same thing—there's a lot of money in TV, but it's not working much in TV circuit.

Many other factors are at play. It's not working much in TV circuit. Each is more movie-focused as the actor has the experience and track record of cinema, but television should be able to do it. In the movie business, there's a lot of money, but in TV, there's a lot of money. It's the same thing—there's a lot of money in TV, but it's not working much in TV circuit.
